

Introduction to Flash

Introduction.....	1
Uses for Flash	1
The Process of Creating a Flash Movie	1
The Flash Interface	2
Stage.....	3
The Timeline.....	3
Panels	4
Property Inspector.....	5
Tools	6
Controller	7
Creating a Flash Movie.....	8
Setting the Movie Properties.....	8
Saving a Flash File.....	10
Creating Artwork	11
Vector vs. Bitmap	11
Creating Basic Shapes.....	12
Selection Tools.....	26
Using the Subselection Tool	26
Using the Lasso.....	27
Altering Artwork with Transformations	28
Scaling.....	28
Rotating.....	29
Skewing.....	29
Changing the Center Point.....	29
Copying and Resetting Transformations	30
View Tools.....	31
Hand Tool	31
Zoom Tool	31
Previewing and Saving	32
Previewing in the Flash Authoring Environment	32
Previewing in the Flash Player	32
Publish Preview	33
Saving as a Flash Movie Player.....	34
Importing Into Web Design Software (Optional).....	35
Exercise 1	36

Importing Artwork	37
File Formats	37
Importing and Altering an Imported Vector Graphic	38
Using Type.....	41
Placing Text on the Stage	41
Editing Text	42
Using the Transform Panel and Tools	43
Manipulating Letters.....	43
Embedded Fonts vs. Device Fonts.....	43
Exercise 2.....	45
Libraries, Symbols, and Instances	46
Creating a Symbol from Artwork	46
Editing a Symbol.....	47
Importing Symbols Through Common Libraries	48
Deleting a Symbol.....	48
Exercise 3.....	49
Layers.....	50
About Layers.....	50
Adding and Naming Layers	51
Showing and Hiding Layers.....	52
Locking and Unlocking Layers.....	53
Reordering Layers.....	53
Animation	55
Animating with Tweening	57
Motion Tweening.....	57
Changing the Animation Path.....	60
Creating Intermediate Points in the Animation	62
Changing the Animation Duration.....	64
Creating a Curved Path.....	64
Editing Points on a Path.....	65
Copying a Motion Tween	66
Exercise 4.....	67
Using Motion Presets.....	68
Transforming Symbols and Motion Paths	69
Using the Properties Panel.....	70
Introduction to the Motion Editor.....	71

Shape Tweening.....	76
Using Shape Hints.....	77
Using Multiple Layers and Transparency.....	79
Extending Shape Tween Key Frames.....	81
Using Multiple Motion Tweens.....	82
Exercise 5.....	83
Exercise 6 (Extra).....	84
Applying Gradient Effects.....	85
Appendix A: Flash Tools.....	87
Appendix B: Basic Steps for Motion and Shape Tweening.....	88
Appendix C: Flash Shortcuts.....	89
Appendix D: Timeline Representations of Animations in Flash.....	90
Appendix E: Solutions to Exercises.....	91
